Chapter 6 – Oxidation-Reduction Reactions 67 thus creating a voltaic cell, which is often called a battery. This section describes the fundamental components of voltaic cells and describes several different types.

Chapter 6 Oxidation-Reduction Reactions - Mark Bishop

Low-molecular weight non-ionic surfactants can be treated in a similar way as binary block copolymers. They have much shorter chains than polymers, though the two parts of the surfactants have very different properties—one part is hydrophilic and the other extremely hydrophobic.

Conductance Measurements Part 1:Theory

An ion thruster or ion drive is a form of electric propulsion used for spacecraft propulsion. It creates thrust by accelerating positive ions with electricity. The term refers strictly to gridded electrostatic ion thrusters, and is often incorrectly loosely applied to all electric propulsion systems including electromagnetic plasma thrusters. [citation needed]

Rosecliff, built 1898-1902, is one of the Gilded Age mansions of Newport, Rhode Island, now open to the public as a historic house museum. The house has also been known as the Hermann Oelrichs House or the J. Edgar Monroe House.. It was built by Theresa Fair Oelrichs, a silver heiress from Nevada, whose father James Graham Fair was one of the four partners in the Comstock Lode.
