Self-driving cars, perhaps more correctly referred to as connected and autonomous vehicles, are already here in various forms. Connected vehicles are those which are able to communicate with their ...

### **Self-driving cars - GOV.UK**

Removing humans from the "driving equation" would save lives and dramatically reduce the costs associated with car accidents, Swinburne's self-driving car expert Dr Hussein Dia says.

### **Self-driving cars could dramatically reduce the road toll**

Experiments have been conducted on self-driving cars since at least the 1920s; promising trials took place in the 1950s and work has proceeded since then. The first self-sufficient and truly autonomous cars appeared in the 1980s, with Carnegie Mellon University's Navlab and ALV projects in 1984 and Mercedes-Benz and Bundeswehr University Munich's Eureka Prometheus Project in 1987.
